The all new generation of AfisCooter C+ brings to the market a higher level of design and features that now provides further comfort, reliability and safety. Building on the proven heritage of the popular larger AfisCooter S+ models, this new mid-size version incorporates advanced engineering, safety, fully active front and rear suspension and stylish design. The redesigned C+ series have now several new features as the addition of a unique optional rigid windshield canopy. This was made possible by the latest advancements in scooter engineering.

The tiller control lever has a gas sprung activator which is easily adjustable for optimum ergonomic positioning of the user. The delta steering has speed control levers on both sides and is designed to give forward and reverse control using fingertips or thumbs of both hands. For optional status recognition, the C+ series is now equipped of an onboard computer and LCD speedometer. The control panel is easy to read and displays all the relevant informations the driver requires in a simple format.

AfisCooter C+ is the ultimate mobility scooter for urban environments offering stable, reliable, and worry-free driving on smooth surfaces or rough terrains. All you have to do is choose between the ultra solid and stable C4+ or the highly manoeuvrable C3+. Whichever you choose, you'll be travelling in outstanding style and comfort.
