

# PARTNER III

## THE MOST ULTIMATE 3 WHEELERS

### THE REVOLUTIONNARY THREE WHEELERS THAT EVERY BODY TALK ABOUT!

The PARTNER III, with its stunning looks and advanced design, sets a new bench mark for mobility scooters. Incredibly well equipped and comfortable to ride because of its unique motorcycle style suspension, the PARTNER III shows just how good and stable a three wheel scooter can be. We know you won't find a scooter elsewhere with the same combination of stability, power and handling.

The big alloy wheels and very high ground clearance, coupled with a high duty power unit, allow the PARTNER III to negotiate rough ground, sharp curbs and uneven hills with ease. It is perfect to negotiate sidewalks or road in bad shape. It also can carry up to 400lbs at a speed of 16 km/h with a range up to 40 km.

With a totally orthopedic fully adjustable seat, the PARTNER III is perfect for shopping or long rides.

With a German technology, the PARTNER III has all its equipment available at fingertips: automatic brake, complete lights system including brake lamps, and many other features normally seen on cars or motorcycles.

A high tech safety system completes all the features that makes the PARTNER III the most unique three wheel scooter.

- Lenght : **57"**, Width : **27"**
- Weight with batteries : **140kg – 310lbs**
- Max. speed : **16 km/h**
- Range (approx.) : **Up to 40km**
- Max. load : **400lbs**
